DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Friday, 25 March 2022 at 05:38 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Large areas of Moderate air pollution, and locally High levels, for England and Wales today, with isolated Very High levels of air pollution likely for eastern England. Scotland and Northern Ireland will have generally Low levels of air pollution.

Tomorrow: Widespread Moderate levels of air pollution will persist across the southern half of the UK for Saturday, with locally High levels still possible. Scotland, much of Northern Ireland and northern England will keep Low levels of air pollution.

Outlook: Air pollution levels will decrease, with the areas of Moderate air pollution gradually diminishing in size and frequency, leaving predominantly Low levels of air pollution for Tuesday.
